

## **KDHE Division of Health**

### **Transcript for the West Nile Virus TV Commercial**

**Narrator:** “Protect yourself and your family from the risk of West Nile Virus. It’s mosquito season and with it comes the risk of West Nile Virus, especially with people over 50. The good news is that you can protect your family by using insect repellent with DEET, or wear protective clothing and eliminating standing water around your home. For more information call 1-877-228-2287 or go to [westnileks.com](http://westnileks.com). Sponsored by the Kansas Department of Health and Environment.
